

T. G. RAILWAY REDUCES ITS FREIGHT RATES

New Rate Which Goes Into Effect in January Means Saving of Thousands of Dollars to Southern Nevada.

- W. D. Forster, traffic manager of the Tonopah and Goldfield railroad yesterday announced a change in the tariff rates on that road which will go into effect on January 2, 1909. The new tariff reduces the cost of freight on a number of commodities and will be greatly appreciated by the residents of the southern district.
- Among the commodities affected is beer from Seattle and Portland, on which a reduction has been made of \$2 a ton, which will effect a saving of from \$30 to \$40 a car load.
- The transportation charges on coal from San Francisco has been reduced \$1 a ton, making a saving of \$30 on the carload.
- Fresh fruits from California shipping points have been reduced \$2.55 a ton, effecting a saving of \$30.60 a car.
- The new rate on fuse will be \$2.30 per hundredweight against the old rate of \$2.88 per hundredweight, thus making a saving of \$82 per car.
- Oil from San Francisco and bay points and Bakersfield shipping points will be reduced \$2.65 a ton. This is from \$53 to \$60 lower per carload than the old rate.
- The rate on iron and steel articles from Reno will be reduced \$36 a carload.
- Reno will also in the future enjoy through class rates to those points.
- A rate of \$10 per ton has been placed on all green fruits and vegetables shipped from all Nevada and California points south of Mina. The object of the introduction of through point rates in Nevada to Tonopah will serve two purposes to both the public and the railroad. It will assist in promoting and encouraging the industries at the points of production in this state and will also help toward facilitating speedy movement of freight.
- It appears to be the aim of the Tonopah and Goldfield railway officials to assist and encourage in every possible manner and way the industries within the state and to attract outside people to the possibilities of this state as a mining and industrial point.

THIS EVENING'S BALL AN EVENT

Tonight at the Miners Exchange hall the Knights of Columbus will give their anniversary ball, which promises to be the social event of the season. Every care has been taken for the comfort and enjoyment of those who attend and from the advance sale of tickets the affair will be well attended. In the past the Knights of Columbus have made a name as entertainers and they will do all in their power to keep up this name. The finest of music has been engaged and the floor will be in excellent condition. A large floor committee has been appointed which will

see that no one is lacking of dances. Every small detail has been looked after and there is no reason why the devotees of the terpsichorean art will not enjoy themselves during the entire evening. The grand march will take place at 9 o'clock sharp.

Greet the morning sun in the breakfast room of the Mizpah grill. 12-10-tf.

DISTRICT COURT DOINGS.
In the district court yesterday C. M. McKillops pleaded not guilty to the charge of assault with intent to kill. The date of his case will be set hereafter.

The case of the Herring-Hall-Marvin Safe company vs. Letson Balliet was continued until this morning on account of the court being occupied hearing the Avery case.

M. J. Keller is Charged With Mail Robbery

M. J. Keller, or "Irish Mike" as he is better known, and who was arrested on the night of December 6 and booked at the county jail as held on suspicion, was taken to Carson City, Nevada, yesterday morning accompanied by United States Deputy Marshal L. Stern and Postoffice Inspector A. C. Graff, and will be given a hearing before the United States commissioner there.

The alleged crime that Keller is charged with is tampering with the United States mails. On or about

the first of December a mail pouch was stolen from the depot at Mill City, California, and when found later it had been thoroughly rifled and a quantity of registered mail was missing. A stranger who had been noticed about the town and who left on the next train following the robbery bore a resemblance to Keller and the secret service authorities have been working on the case since that date. The arrest of Keller was made by the sheriff's office here on receipt of telegraphic instructions from government officials.

JUDGE O'BRIEN GAVE MARTELL A STRONG LECTURE

William Martell, who was found guilty Friday night in the district court on the charge of having burglar's tools in his possession with felonious intent, was sentenced last evening by Judge O'Brien to serve three years in the state prison at Carson. The minimum punishment on this charge is one year and the maximum five years. Before sentence was pronounced Martell's counsel made a motion to set aside the indictment and the verdict of the jury on the grounds that another person other than a witness and the district attorney was in the grand jury room at the time Martell appeared before that body. The person in question was a deputy sheriff who had charge of Martell. The motion was denied by the court and sentence was pronounced.

In pronouncing judgment, Judge O'Brien said: "You were indicted by the grand jury of this county of the crime of having in your possession burglar's tools with intent feloniously to break and enter into Ryan's and Stenson's store, and to which indictment you pleaded not guilty. You were thereafter tried by a jury of your peers and upon a fair and impartial trial you were found guilty. This offense is one which involves a considerable moral turpitude. The facts in this case show that you were not only prepared to commit burglary, but you were also prepared to commit murder if necessary. You had upon your person a large sized gun and the cartridges and other things necessary to take human life if your attempt at burglary had been interfered with. It has been the boast of the people of Nevada, particularly the mining camps, that they are singularly free from burglars and footpads; that the prospector and miner may leave his little cabin unlocked and unattended, and all of his clothing, supplies, provisions and tools therein, and that he may return after a prospecting trip or after a day's work and find them unmolested. The coming into the mining camps of southern Nevada of the burglar is something to be discouraged and I feel in cases of this kind an example ought to be made to dissuade others from committing like offenses. The jury that tried and convicted you in this case recommended you to the mercy of the court. Why they should have done so upon the facts is not entirely clear to me. However, the jury has seen fit to do so and I intend to follow the recommendations of the jury because I have made it a practice to follow the suggestions and recommendations of juries. For that reason I will impose a lighter punishment in this case than I would otherwise have done."

TRAIN DELAYED BY LEAK IN TANK

Train No. 24, which is due in Tonopah at 11 o'clock, was three hours late yesterday. The delay was caused by the water supply on the engine escaping by leakage. When the train arrived at Blair Junction it was found that the water supply was exhausted and a wait had to be made until an engine could be sent from this city to bring the train in.

O. S. AVERY IS FOUND GUILTY OF MISDEMEANOR

The case of O. S. Avery, which has been occupying the attention of the district court for the past three days, was completed yesterday afternoon and given to the jury. Avery was charged with receiving stolen goods to the value of over \$50.

After three hours deliberation the jury returned a verdict of guilty of a misdemeanor charge, as its valuation of the goods was under \$50. The court set Saturday as the day for sentence and Avery was remanded to the custody of the sheriff.

T-G. MARKET GETTING THE TONOPAH TRADE

In the T-G. meat market Tonopah has an institution of which it may be proud, for few of the Nevada towns have a meat market which will compare with it. Cold storage meat—which means meat preserved with formaldehyde and other chemicals—is the rule in southern Nevada, but the T-G. market maintains its own slaughter houses at Tonopah and Goldfield, and serves nothing but fresh, wholesome meat to its customers. The interior of its shop here is interesting, as the big hanging boxes, kept cold by artificial means, the brine tanks, where meat is put in pickle, or "corning," and the department where sausage of various kinds is made, as well as lard and other products which the market makes itself, are all models of neatness and are as complete in their way as the equipment of any of the big metropolitan houses. That the people of Tonopah appreciate these things is shown by the fact that they are rapidly coming to realize that the T-G. market is the place to buy their meats.

R. B. Kidd wishes to thank his many customers for their past patronage and hopes to receive their future business at his assay office, two doors south of the Palace hotel, Main street. He has installed a complete power plant and is prepared to do quick and accurate assaying of all kinds. 12-5-2w.
